## After School Activity Descriptions

### **Wellspring Athletics– G6-12**

Advisor: Contact Ahmad Yamout for all concerns regarding athletics

- Aims to provide student athletes with the opportunity to develop their athletic abilities and knowledge through training and coaching and, when possible, local competitions
- Any off-campus sports have transportation provided from Wellspring to the facility. Pick up is from the off-campus facility by families

Activities include:

- Boys Basketball Team – G6-12
- Girls Basketball Team – G6-12
- Boys Football J JV Team – G6-8
- Girls Football Team – G6-12
- Table Tennis – G6-12
- Swimming – G6-12
- Tennis – G6-12

**Fees are \$190 for all activities except swimming, which is \$145**

### **Intermediate Guitar– G6-12**

Students who already have basic knowledge of guitar are invited to join. The course is recommended for students who enrolled last year or during Semester 1. This activity gives students an opportunity to pick up new skills and to play music with other people. Bring your own instruments, only limited guitars are available.

**No cost – unpaid activity**

Volunteer Wellspring Advisors: Todd Duckworth & Bassam Amine

### **Graffiti Level 1**

Explore your creative side! This course is divided into three sections: history, technical and practical. Students will learn about the evolution of graffiti, how to create a piece, and then work together to develop their own work! At the end of the program, the group will be painting a 7x2 meter graffiti piece together. Materials are included.

**Cost: \$145 per term**

Contact: Jennifer DeKnight

### **Graffiti Level 2**

Take your graffiti talents to the next level! Students who completed the Level 1 course during the fall semester are invited to join to further develop their technical and creative graffiti skills. Materials are included.

**Cost: \$145 per term**

Contact: Jennifer DeKnight

### **Dance**

**\*Please Note: Dance will not start until March, but we are accepting registrations now.**

Get moving! Our dance teacher from Arcenciel will cover the basics of dance moves and knowing your body, teach a choreographed dance, and then allow students to develop their own artistic expression through the creation of their own choreography. The aim is for students to perform at a school talent show during the year.

**Cost: \$140 per term**

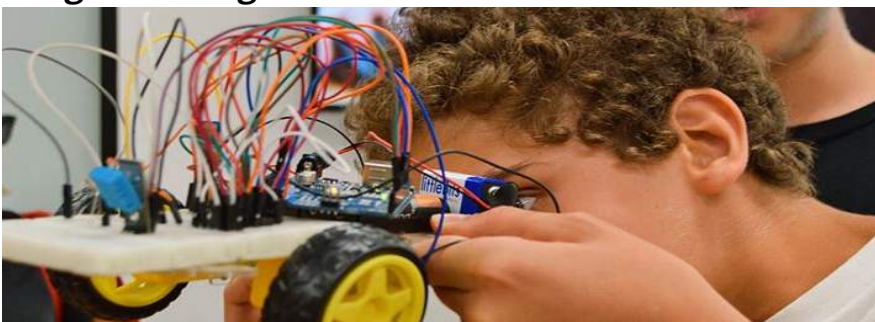

Contact: Jennifer DeKnight

### Technology Courses

Wellspring is partnering again this year with Geek Express to offer a variety of technology-oriented courses as part of the after-school activities program. Geek Express is a local academy promoting STEAM education for youth in Lebanon ([www.geekexpress.com](http://www.geekexpress.com)). Geek Express will provide the instructors and materials for all the courses to be delivered at school.

Each course will run for 12 sessions, at the **cost of \$145 per term**.  
Contact for all technology activities: Jennifer DeKnight

### Gadget Building

With the widespread use of open source hardware and software, developing gadgets is easier and faster than ever. In this workshop, students are introduced to microprocessors and the coding of hardware. In it, they will build cool and techie gadgets and acquire valuable coding and product design skills.

### Movie Trailer Production – Grades 8+

Step into the world of movies and filmmaking and learn every aspect of film creation and production. In this workshop, students get to experience the production process from the basics of writing and directing to digital editing to produce a movie trailer.

### Video Game Design with Roblox

Roblox is a multiplayer online game and game creation platform that allows users to design and play their own games. In this workshop, students learn the skills needed to code their own 3D game by creating their own space, coding the interactions in it, and then publishing their game where players from around the world can play and test it.
